FACT SHEET

OVERVIEW

Emery Sapp & Sons (ESS) is a 100% employee-owned heavy civil construction company with 9 offices and more than 1,600 employee-owners. Founded in 1972, the company works with more than 270 clients annually spanning both private and public sectors including Departments of Transportation, developers, general contractors, federal government, municipalities, and railways. We specialize in excavation, grading, underground utilities, bridge construction, asphalt and concrete paving, and pavement preservation. We are guided by our purpose to change lives through employee-ownership and transform communities through the infrastructure we build. By investing in our partnerships, fueling our passion for innovation, and continuously leveling up our performance, we work together to push the boundaries of what's possible.
